14	<p>A.R. 36. While A1 is dribbling the ball in her backcourt, A2 and B2, who are located near the free throw line in Team A's frontcourt, foul each other and the official stops play for the fouls. The fouls committed by A1 A2 and B1 B2 are:</p> <p>(1) Personal fouls; or (2) Technical fouls</p> <p>RULING: In (1), A1 A2 and B1 B2 have committed a double foul. Play will resume at the point of interruption with a throw-in to Team A at the out-of-bounds spot nearest to where the ball was located when the official stopped play for the fouls. The shot clock shall not be reset.</p>

101

A.R. 330. Team A is awarded a throw-in with 25 seconds remaining in the fourth period and five seconds on the shot clock. A1's successful try for goal occurs near the expiration of the shot clock. The officials cannot hear the shot-clock horn over the crowd. Following a timeout, the officials decide that they will use the monitor to determine whether or not the try by A1 was released prior to the shot-clock horn.

RULING: ~~When there is a question of whether or not the try was released in time, the review falls into the category of a correctable error for "erroneously counting or cancelling a score". In such cases, the official has until the second live ball to recognize and correct the error. Points scored, time consumed and additional activity that may occur before the recognition of the error shall not be nullified.~~

When there is a question of whether the try was released in time, and the try was successful, the officials have until the ball next becomes live to recognize the potential mistake and signal to the scorer that an instant replay review is required. When the try is unsuccessful, a review is not permissible.
