

THE 23 MOST MISUNDERSTOOD RULES IN WOMEN'S HIGH-SCHOOL BASKETBALL

- 1. There is no 3-second count between the release of a shot and the control of a rebound; at which time a new count starts.
- 2. A player who is not a dribbler in control can keep (i.e. a tap) a ball in bounds, go out of bounds, return in bounds and play the ball.
- 3. There is no such thing as "over the back". There must be contact resulting in advantage/disadvantage. Do not put a tall player at a disadvantage merely for being tall.
- 4. "Reaching" is not a foul. There must be contact and the player with the ball must have been placed at a disadvantage,
- 5. A player can always recover her fumbled ball. A fumble is NOT a dribble and any steps taken during recovery is not traveling, regardless of progress made and/or advantage gained. Running while fumbling is not traveling.
- 6. It is not possible for a player to travel while dribbling
- 7. A high dribble is always legal provided the dribblers hand stays on top of the ball, and the ball does not come to a rest in the dribblers hand.
- 8. A "kicked" ball must be intentional.
- 9. It is perfectly legal for a player to rebound her own air-ball, provided the official deems the shot a legitimate try for a goal.
- 10. It is a jump ball (alternating possession) when the ball lodges on/in the basket support except during the throw in when this is a violation.
- 11. Striking the ball handler/dribbler on her hand, while holding the ball is not a foul, no matter how noisy or how much it hurts.
- 12. A defender does not have to "give the dribbler a step". As long as legal guarding position has been established, it is up to the dribbler to avoid contact.
- 13. The sides, top and bottom of a rectangular backboard are in-bounds.
- 14. Jumpers may tap the ball simultaneously; may tap the ball twice; and when a legally tapped ball touches the floor, a player other than the jumpers, or a backboard, the jump ball has ended and either jumper may recover it.
- 15. If there is no contact, a moving screen isn't a foul and it isn't even considered a screen
- 16. Any contact foul during a live ball is either a personal, intentional or disqualifying foul, not a technical

- 17. Basketball is a contact sport. Incidental contact does occur, and contact, which does not create an advantage/disadvantage, may be ignored.
- 18. Any unsportsmanlike conduct during a dead ball is a technical foul if the conduct is non-contact in nature or intentional or disqualifying if the conduct is contact in nature.
- 19. A defensive player does not have to be stationary to take a charge. She must simply establish a legal guarding position, then she can move laterally with the ball or back, but never into the offense.
- 20. An intentional foul is always penalized with 2 free throws, except on a missed 3-point try, which is awarded 3-free throws and possession out of bounds to the offended team at the division line opposite the table.
- 21. When an airborne shooter commits a player control foul, her successful try for a goal cannot be allowed, regardless of whether the try was released before or after the foul.
- 22. Lifting the pivot foot does not constitute a travel unless the ball handler puts the pivot foot back down on the floor prior to beginning a dribble, passing the ball or shooting the ball.
- 23. Basket interference occurs when: a player touches the ball or cylinder (net included) when the ball is on or within the cylinder; touches the ball when it is touching the cylinder having the ring as its lower base; touches the ball while outside the cylinder while reaching thru the basket from below. Goal tending occurs when: a player touches the ball during a try or tap while it is on its downward flight, entirely above the basket ring level and has the possibility of entering the basket.
